

EAGLE XL SERIES AIRCRAFT TUGS

XL-30 & XL-40

The XL Series is the largest species of Eagle. Featuring a standard Four Wheel Drive, Four Wheel Steer power train, the XL Series offers superior functionality for moving all "single-aisle" aircraft in all weather conditions. The XL Series are front-operator tow tractors which accommodate an operator and up to 2 passengers. Powered by T4i diesel engines for use with ultra-low sulfur diesel fuel (ULSD), and also available with T3 diesel engines where only high-sulfur diesel fuel is available. XL Series tow tractors are loaded with standard features to help you meet all of your aircraft handling needs.

Here is what the XL Series has to offer:

- Up to 40,000 lbs. GVW to handle aircraft up to a B757 in all weather conditions.
- Four Wheel Drive power train, providing safe, controlled traction on all surface conditions.
- Standard switchable-steering between Four Wheel and Crab Steering for superior maneuverability of and around aircraft.
- Several safety features designed in to the XL Series to ensure safe operation.
- Powered by either T4i or T3 diesel engines to meet your fuel availability.
- Ergonomic front-operator compartment that accommodates up to 3 people.
- Low-profile design that allows operators to safely and efficiently handle aircraft.
- Designed with carefully matched components, resulting in minimal or no unscheduled maintenance or repair, and is backed by an industry-leading 3-yr/3,000-hr warranty.
- Unparalleled reliability and factory-direct service and support is the Eagle Tugs advantage.
- Eagle Tugs has over 40 years of experience designing, building and supporting reliable tow tractors.
